

I would like to speak against proceeding 02-278. This is one of the situations that the federal government should stay out of the state's business. Just look at how many Indiana residents are signed up for our Do Not Call list. And I am sure the list grows everyday. This plan works well for us. My elderly mother is not disturbed or pressured into something she doesn't understand. My family has quiet evenings without being harrassed by the annoying sales calls. PLEASE LEAVE our Do Not Call List ALONE!
